Online Application: <https://scholarships.hacu.net>

Scholarship Program Deadline: May 23, 2008 APPLY TODAY!!

## Engineering

### ASCO Numatics Industrial Automation Engineering College Scholarships

ASCO Numatics, a division of Emerson, has been the world's leading manufacturer of comprehensive flow control and pneumatics solutions for over 100 years. We are proud to offer our 2008/2009 engineering college scholarship program aimed at rewarding exceptional undergraduate and graduate students pursuing a career in manufacturing and processing engineering.

ASCO Numatics will award two, \$5,000 scholarships to U.S. engineering students who are pursuing careers in industrial automation-related disciplines. Additionally, ASCO Numatics will make \$1,000 grants to the engineering departments of the colleges in which the winners are enrolled. The scholarships are merit-based and will be awarded on the candidate's potential for leadership and for making a significant contribution to the engineering, instrumentation, systems, and automation professions, particularly as they relate to the application of fluid control and fluid power technologies. Scholarship recipients may be eligible for an ASCO Numatics internship.

ASCO Numatics officials will present the scholarship awards at the ISA Expo, on October 14, 2008 at the Reliant Center in Houston. The ASCO Numatics award presentation will be part of the annual ISA Young Automation Professionals Festival (YAPFEST) that ISA hosts for automation professionals between the ages of 18 and 30.

### National Multicultural Engineering

NAMEPA offers both national and regional scholarships for African American, Latino, and American Indian students who have demonstrated potential and interest in pursuing an undergraduate degree in engineering. This year, we are offering scholarships under two categories: the Beginning Freshmen and Transfer Engineering Student Awards.
